

Anuj Purbe

Computer Engineering Undergraduate

anujpurbe123@gmail.com github.com/anujpurbe linkedin.com/in/anujpurbe Chennai, India

B.Tech Computer Engineering student building a strong foundation in data structures, algorithms, object-oriented programming, and relational databases. Solved 100+ algorithmic problems with attention to complexity analysis. Seeking a software engineering internship.

EDUCATION

Amrita Vishwa Vidyapeetham Chennai, India · 2024 – Present

B.Tech, Computer Engineering

Coursework: Data Structures, Algorithms, Linear Algebra, Object-Oriented Programming, Database Systems

Nightingale International School Nepal · 2022 – 2024

Higher Secondary (+2), Computer Science — 4.00 GPA (Top 3 Rank)

TECHNICAL SKILLS

Languages	Python, Java (OOP), SQL, HTML, CSS	Core CS	Data Structures & Algorithms, Complexity Analysis
Mathematics	Linear Algebra (Eigenvalues, QR Decomposition, Orthogonality)	Database	MySQL
Tools	Git, VS Code		

PROJECTS

- DSA & Algorithm Implementations** — Java, OOP
Implemented stacks, queues, linked lists, trees, and recursion-based algorithms in Java; solved 100+ algorithmic problems with a focus on optimization and complexity analysis.
- Relational Database Mini Project** — MySQL, SQL
Designed a normalized relational schema and wrote SQL queries using JOIN, GROUP BY, and aggregation; improved query efficiency through structured data modeling.

ACHIEVEMENTS & LEADERSHIP

- Top 3 in Higher Secondary Education — 4.00 GPA, Nightingale International School (2024)
- Organized a school-wide talent show with 900+ attendees

CERTIFICATIONS

- Advanced Python Developer Training — Codingal (2023)
- SQL Developer Certification — Codingal
- Data Science Fundamentals — Codingal
- Web Development Course — Codingal
